

Jack Mc Guinness's Testimony

Healing at St Mochua's Well Derrynoose

This is my testimony of the Healing that I received at St Mochua's Well, Derrynoose when I was 48 years of age.

I am a roofer by trade, and was diagnosed with Arthritis in my right Hinch (Hip) at 46 years old. My Doctor was Dr Gillespie in Tynan, Co Tyrone, who told me that I would have the condition for life and he informed me that no cure was available.

I then went to Dr Healey in Castleblaney for a second opinion, who confirmed that I had Arthritis in my right hip and that I would have it for life, and that no cure was available. I was then put on pain killing tablets from Ronaghan Chemists in Monaghan. After being on these red tablets for 1 week short of 2 years, the Chemists told me that they were taking me off the pain killers as the side effects of them would be too severe on me compared to the Arthritis itself.

I then went to St Moucha's Well in Derrynoose in search of a Cure from the Holy Well. I went to the Well for one Night and Prayed to St Mochua to intercede for me for a cure for my pain. I took bottle of water with me and put the water from the Well on my hinch for the next few nights.

Within a few days my Pain had left me completely, without any pain killing tablets and I have been free from pain of Arthritis in any part of my body since that date. I have been able to work as a roofer for the rest of my life, and was still roofing with my son Martin Mc Guinness, when I was 84 years of age. I am now 93 years old and my wife can also verify to the truth of this account.

Since my healing, I have been returning regularly to St Mochua's Well, cleaning, tidying and painting to keep the place presentable for others to come to Pray for a Healing in their lives.

I have told this account as accurately as I can remember and both my Wife and Myself have signed below as a Witness to the Power of Prayer and the Power of the Healings that are available to people who come to St Mochua's Well with Faith that their Prayers will be heard and answered.
